

# SYSPRO ERP

## The Possibilities are Infinite

Technology has become an enabler for manufacturers operating in an increasingly global economy, allowing them to redefine the way their business works, optimizing supply chains, reducing costs, and increasing productivity and efficiency to ultimately deliver better customer service.

SYSPRO is a continually-evolving, industry-specific ERP solution designed to simplify complexity and add significant value to manufacturers and distributors.

SYSPRO's powerful new features, integrated with the latest innovative technologies, pave the way to digitalizing your business, streamlining your supply chain and providing greater control and visibility while simplifying and personalizing the user experience. What's more, SYSPRO gives you the flexibility to choose the deployment that best suits your unique business needs – and budget – and the ability to choose the device that best meets the task at hand, anywhere, at any time.

**With Our Latest Release of SYSPRO the Benefits to Your Business are Infinite.**

# 8 WAYS SYSPRO ERP SIMPLIFIES YOUR SUCCESS

## 1 INDUSTRY BUILT

SYSPRO ERP is built to deliver industry-specific functionality for manufacturers and distributors in key industries including Automotive Parts and Accessories, Electronics, Food and Beverage, Metal Fabrication, Industrial Machinery and Equipment, Packaging and Plastics and Rubber.

### With SYSPRO you can:

- Choose the solutions that best apply to your operational needs.
- Remain compliant with a built-for-industry framework that continually evolves.
- Optimize, control and streamline operations and processes in your specialized environment with a fully integrated solution.
- Configure the software to suit your unique requirements.
- Adapt and scale up your solution as your business grows and your needs change.

## 3 ACTIONABLE INSIGHTS

SYSPRO Actionable Insights improves business performance and drives business behavior by providing business-critical insights for quicker analysis, decision making and execution.

### With SYSPRO you can:

- Automate critical financial processes and gain increased visibility into your financial health and overall business performance using corporate performance management tools.
- Get immediate visibility by individual and department across your entire operation with the flexibility to define operational goals, targets and deadlines at an individual, role or organizational level using SYSPRO's Business Insights.
- Empower individuals to meet goals, targets and deadlines, collaborate with others, and perform to their full potential – all while measuring their own KPIs and managing their own work-to lists.
- Visualize losses and effectively measure and improve manufacturing performance with SYSPRO's Manufacturing Operations Management solution.

## 2 CHOICE AND FLEXIBILITY

SYSPRO excels in its ability to deliver an intuitive solution built around your company's unique needs, rather than a one-size-fits-all solution that your business has to build itself around.

### With SYSPRO you can:

- Choose the deployment that best suits your enterprise needs – in the cloud, on-premise or both (hybrid).
- Choose how you want to engage depending on your role, operational need, remoteness of locality and preference:
  - Windows user interface
  - Web interface (Avanti) for universal access on any device, on any platform, from anywhere, at any time
  - Espresso mobile platform, with its touch-friendly interface and offline capability
- Select from the most practical and relevant emerging technologies to gain a differentiated competitive advantage.

## 4 ENABLE DIGITAL BUSINESS

SYSPRO has adopted the most relevant emerging technologies and made them available as pragmatic solutions – ensuring that, with your current equipment and factories, you can digitalize your business practically and at your pace.

### With SYSPRO you can:

- Integrate business partners across your supply chain or to other systems (on-premise or in the cloud) using SYSPRO's well-defined integration services and APIs.
- Tap into the power of Artificial Intelligence and Machine Learning to have rich insights, unidentified trends and anomalies in your business brought to the forefront.
- Assign your very own digital assistant, Ken the Bot, to service customer and supplier queries quickly and accurately on any platform, messaging app or chat space, 24/7.
- Create more intelligent manufacturing processes by collecting data from your machines and other shop floor devices automatically using SYSPRO's Manufacturing Operations Management solution.
- Facilitate enterprise-wide collaboration and seamless communication using SYSPRO Harmony, a user-friendly social media platform at the core of your SYSPRO ERP system.

## 5 ENGAGING USER EXPERIENCE

SYSPRO provides an ERP system that is conducive to the creation of a productive and satisfying working environment, encouraging personnel to adopt and engage with SYSPRO through a platform that's easy to use and empowers users in their daily operations.

### With SYSPRO you can:

- Work where and when you want, on any device, on any platform, from anywhere, at any time using the SYSPRO Avanti web interface, which provides universal access to the same familiar SYSPRO experience in a web browser.
- Get instant and secure mobile access to key business information even when working offline using SYSPRO Espresso, which is specifically designed and optimized for mobile devices.
- Give users a familiar interface to connect, communicate and conduct their daily business using SYSPRO Harmony, a collaborative, user-friendly social platform that brings social media into the core of ERP.
- Remove the need to search for data by automatically surfacing real-time insights, trends and relevant business-critical information directly to users using SYSPRO Business Insights.

## 7 PERSONALIZE YOUR WORKSPACE

SYSPRO ERP adapts to every individual within your organization – providing them with the flexibility to personalize their workspace without the need for programming skills.

### With SYSPRO you can:

- Provide your workforce with the complete tools and information needed to perform their role efficiently and effectively using Role-based Workspaces in SYSPRO Avanti.
- Eliminate the need for individual customization by enabling users to design their own workspaces without requiring external development.
- Personalize, predefine and automatically promote KPIs and and work-to lists to individuals, alerting them to take immediate action.
- Deploy Artificial Intelligence and Machine Learning directly to the user interface to empower users with recommended actions.
- Effortlessly get to the information you need using predictive search capabilities.
- Easily create simplified, uncluttered and easy-to-read dashboards and screens for targeted team or individual action, using Webviews in SYSPRO.

## 6 SCALABLE HIGH-PERFORMANCE TECHNOLOGY

SYSPRO uses proven technologies and platforms to deliver greater scalability, higher availability with less downtime for maintenance, security, and enterprise-strength data integrity - all while offering excellent performance. SYSPRO ERP provides the ability to scale to large deployments, handle high-volume single server instances and accommodate multinational organizations with hundreds of subsidiaries.

### With SYSPRO you can:

- Smoothly expand from a handful of users to hundreds or even thousands, using the same core software.
- Easily implement new functionality as your company's needs change.
- Integrate other enterprise applications with SYSPRO for better operational control and management reporting.
- Extend beyond the enterprise to allow trusted customers and suppliers the ability to link with your systems for better order and delivery performance.

## 8 SAFEGUARD YOUR ERP INVESTMENT

SYSPRO delivers long-term business value, ensuring the viability of your business infrastructure.

### With SYSPRO you can:

- Leverage the relevant innovations to ensure the ongoing evolution of functionality and governance pertinent to your specific business operations.
- Benefit from our 40 years of manufacturing and distribution experience and expertise.
- Rely on proven technologies that are fully scalable.
- Plan and implement the right technology in a predictable, strategic manner that avoids costly errors.
- Benefit from all the innovation that matters, and none that doesn't.
- Leverage a global team of industry experts committed to simplifying your success, speaking your language and future-proofing your business.
- Depend on our proven implementation methodology to maintain project controls and governance throughout the Implementation process.
- Access a number of services – ranging from self-help to remote and onsite support – to make the most of your SYSPRO investment.
- Get local implementation and support through a strong localized channel partner network.
- Educate and upskill yourself and your team through easy access to online and onsite training.
- Implement internal controls according to your specific business and governance requirements.
- Adapt to meet current, new and emerging regulations using a product that is ideally positioned to meet your governance and compliance requirements.
