

## Prophix CPM for SYSPRO

Prophix empowers finance professionals with our innovative software that automates critical financial processes delivering greater visibility into their company's financial health, improving a company's profitability and minimizing their risks. Thousands of innovative organizations in nearly one hundred countries use Prophix to gain increased visibility and insight into their business performance.

### Seamless Integration with SYSPRO

Prophix software is built to integrate easily with a variety of databases, flat files, external data sources, or other formats including direct access to the SYSPRO ERP system. Prophix's data integration features a simple interface, which any business user can master without relying on IT assistance, this allows SYSPRO users to easily move data into pre-built models effortlessly. Using open database technology, our software maximizes collaboration across report publishing, data entry and workflow processes, and since our product is built on the Microsoft SQL platform, SYSPRO users will have comfort in the familiarity of the interface to which they have become accustomed.

Rapid implementation

Low cost of ownership

Unified and scalable

Choice of deployment

# Prophix Solutions

Prophix believes that a single platform is essential. Their product addresses multiple CPM capabilities through a common interface. As a complete CPM package, you can purchase Prophix now and implement only the functionality you need while being able to grow the solution with you to support your future, more strategic performance management endeavours.

## Budgeting

Create consistent and accurate budgets, reduce duplication, and more time for analysis. Create precise budgets with far less labor and gain a deeper understanding of what drives your profitability.

## Reporting

Automate the production and distribution of your balance sheet, income statement, cash flow statement and more – ensuring that no one sees information which they should not access. Leverage stunning visuals of your KPIs (dashboards and scorecards) to offer quick views of the company's performance in real-time.

## Forecasting

Prophix's forecasting software enables you to align information and know where you stand, at any given time, in relation to strategic objectives.

## Financial Consolidation

Prophix financial consolidation empowers you with clear insights derived from accurate consolidated financial information by eliminating manual processes and automating recurring ones.

## Analysis

Facilitate business analysis from multiple perspectives. Gain a holistic view of your organization's performance, while satisfying specific requirements for financial and operational analysis to make informed decisions.

## Cash Flow Planning

Understanding financial performance along with your cash position will provide your executive team with the ability to properly time investments, ensure purchases are in alignment with organizational objectives and improve communications with your bank.
